

Welcome to IAGG-ER - the International Association of Gerontology and Geriatrics European Region Congress

23rd – 25th May 2019 in Gothenburg, Sweden

The congress theme in 2019 is '**Towards Capability in Ageing – from cell to society**'. The European congresses, organized only once during 4-year periods, is the natural meeting place for all of us in gerontology and geriatrics, whether we are researchers or professionals working with older adults and patients. In this respect, the congress offers a unique arena for sharing findings and experiences, whether in biological sciences, medical and health sciences, social sciences, in humanities or in aging services and care. Multi- and interdisciplinary sessions will also ensure that we meet and learn from each other, across disciplines.

Besides three full and intense days, including 10 -12 parallel sessions, you will find many other activities in the exhibit hall. The congress venue will be at the Swedish Exhibition and Congress Centre located in the city center of Gothenburg.

Check the home page for more detailed information; see <https://iagger2019.se/>. Notice the soon approaching deadlines for submissions of abstracts (for Symposia October 22, and for Oral, Oral-Poster and Poster on December 3). The registration fee includes a reception offered by the city of Gothenburg and Region Västra Götaland, free lunch and coffee all three days.

Please share information about the congress with your organization and colleagues.

Clemens Tesch-Römer
President IAGG-ER

Boo Johansson
Congress President

Ingmar Skoog
Congress Secretary General
